

Group 1: If-Else (10 Questions)

1. Check whether a number is even or odd.
2. Check whether a number is positive or negative.
3. Check whether a person is eligible to vote.
4. Check whether a number is divisible by 5.
5. Find the greater of two numbers.
6. Check whether a year is a leap year.
7. Check whether a character is uppercase or lowercase.
8. Check whether a number is divisible by both 3 and 7.
9. Find the smaller of two numbers.
10. Check whether a number is a multiple of 10.

Group 2: Else-If Ladder (10 Questions)

1. Find the largest among three numbers.
2. Print grade based on marks.
3. Create a simple calculator (+, -, *, /).
4. Print month name using month number.
5. Print day name using day number.
6. Check whether a number is positive, negative, or zero.
7. Calculate discount based on purchase amount.
8. Calculate electricity bill based on units consumed.
9. Assign division (First, Second, Third, Fail) based on percentage.
10. Find the greatest among four numbers.

Group 3: Nested If-Else (10 Questions)

1. Find the largest among three numbers using nested if.
2. Find the smallest among three numbers using nested if.
3. Check whether a number is positive and even.
4. Check admission eligibility based on marks in three subjects.
5. Determine triangle type using three sides.
6. Find the largest among four numbers.
7. Check whether a year is leap year and century year.
8. Check whether a student passed all subjects.
9. Check whether a number is divisible by both 2 and 3.
10. Determine employee bonus based on experience and salary.

Group 4: For Loop (10 Questions)

1. Print numbers from 1 to 100.
2. Print numbers from 100 to 1.
3. Print even numbers from 1 to 100.
4. Print odd numbers from 1 to 100.
5. Print multiplication table of a number.
6. Find sum of first N natural numbers.
7. Find factorial of a number.
8. Find sum of squares of first N numbers.
9. Print all numbers divisible by 5 between 1 and 200.
10. Print Fibonacci series using for loop.

Group 5: While Loop (10 Questions)

1. Print numbers from 1 to N.
2. Print even numbers from 1 to N.
3. Find sum of digits of a number.
4. Reverse a number.
5. Count digits in a number.

6. Check whether a number is palindrome.
7. Find factorial using while loop.
8. Find largest digit in a number.
9. Find smallest digit in a number.
10. Print Fibonacci series using while loop.

Group 6: Mixed (If-Else + Loops) (10 Questions)

1. Check whether a number is prime.
2. Print all factors of a number.
3. Print all prime numbers between 1 and N.
4. Check whether a number is Armstrong.
5. Check whether a number is Perfect.
6. Find GCD of two numbers.
7. Find LCM of two numbers.
8. Count even and odd digits in a number.
9. Find sum of all even numbers between 1 and N.
10. Find sum of all odd numbers between 1 and N.

Group 7: Ternary Operator (?) – 10 Questions

1. Check whether a number is even or odd.
2. Find the greater of two numbers.
3. Find the smaller of two numbers.
4. Check whether a person is eligible to vote.
5. Check whether a number is positive or negative.
6. Find the largest among three numbers using nested ternary operators.
7. Check whether a character is uppercase or lowercase.
8. Check whether a year is a leap year.
9. Find the absolute value of a number.
10. Check whether a number is divisible by 5.

Group 8: Switch Statement – 10 Questions

1. Input a number (1-7) and print the corresponding day name.
2. Input a month number (1-12) and print the month name.
3. Create a simple calculator using switch.
4. Input a vowel character and print its name using switch.
5. Print menu options (Tea, Coffee, Cold Drink, Water) based on user choice.
6. Input a digit (0-9) and print its word form (Zero, One, Two...).
7. Build a basic ATM menu:
 - 1 = Balance Check
 - 2 = Deposit
 - 3 = Withdraw
 - 4 = Exit
8. Input an operator (+, -, *, /, %) and perform the operation.
9. Create a language selection menu:
 - 1 = English
 - 2 = Hindi
 - 3 = Bengali
 - 4 = Marathi
10. Input a grade (A, B, C, D, F) and print the corresponding message.
